Terri Lynn Land will take our retirement away.

Land wants to privatize our Social Security

Land, as a Republican National Committeewoman, urged her party leaders in Washington to privatize Social Security. During her campaign, Land has pretended to be a moderate but her actions show her true colors. Imagine what will happen to the Social Security we've earned if Land puts the money in the hands of Wall Street.¹

Land wants to end Medicare as we know it

Land has also pushed Republicans nationally to support turning Medicare into a privatized voucher system – raising our prescription drug costs and leaving us at the whims of big insurance companies. The Congressional Budget Office estimates the changes could force seniors to pay up to 61 percent more for Medicare by 2022.²

Land would have voted to shutdown the government

When asked about last year's government shutdown, Land said she would have voted to shutdown the government – cutting off countless critical programs instead of fighting for Michigan retirees. Land is just another Tea Party extremist more interested in partisan attacks than figuring out solutions.³

Vote to protect the retirement security we've earned.

Say NO to Terri Lynn Land!
